BIG CRICKET MATCH AT STATEN ISLAND TO-DAY.

CAN GO A MILE A MINUTE ON THIS EASILY

CYCLISTS READY FOR GARDEN RACE

A two days' cricket match between teams from the Marylebone Club, of London, and the New York metropolitan district was begun this morning at the grounds of the Staten Island Cricket Club at Livingston. The local team includes Laurie and Curran, who scored centuries in the recent victory over the Bermudians and the two crack bowlers, Cobb and Kelly.

The match is in no sense an international one, representing the best class of cricket in both countries; neither team possesses a player of first class caliber. The English team is composed of university players, who have represented either Oxford or Cambridge within the last year or two, but beyond this little is known of their cricketing ability.

The Marylebone Club could furnish at least a dozen teams who could defeat the eleven which is representing the famous M. C. C. in this country just now. The New Yorkers, therefore, could render a good account of themselves.

That was a great finish the Highlanders put up yesterday. It took Griffith's boys eleven innings to win a ball from the Browns, but they did it, and that satisfied the fans. The team certainly deserves great credit for the fight it is making in travelling at that rate it will be up among the leaders.

There should be a great argument between Rube Turner and Jimmy Gardner before the Colma Club tonight. While Turner is the favorite and the probable winner, he has no sure thing and will know he has been in a tight place.

Reports from Saratoga say that financially Young Corbett is on his feet again. He recently had a bad day at the track, losing about \$10,000, but he is now a question of time, before the books are set, his loss will be back to the nine.

Thomas Hynes, Ireland's champion runner, is bound to race despite the A. A. U. That organization having placed its ban upon him, he is going to turn professional and will shortly make his debut as such in a three-mile race in Boston.

Andy Ferguson has quit the prize-fight and turned fisherman. He has given up all idea of going after a title and has shifted before the fact to a Gloucester schooner, where he will fish for cod and other fish. The owner called every one of the crew, with the exception of Sandy, were light. They confined their fighting to themselves, however, and were careful to leave Sandy a wide berth.

Metropolitans—Emeralds. At Equitable Park on Sunday the Emeralds will meet "Kid" Carey's Metropolitans. Both teams have been playing well, and the contest should be a good one. A good crowd is expected to be on hand to witness the same.

ASHLEY WINS FROM EDELS. (Special to The Evening World.) PROVIDENCE, R. I., Aug. 4.—George Ashley, of Fall River, got the decision over Harry Edels, of Boston, at the Providence A. C. last night.

The fight was rather a tame affair for the first nine rounds, Ashley doing all the leading, and landing but lightly on the Boston man, who had a decided advantage in height and reach.

From the ninth to the thirteenth round Edels landed some pretty hard uppercuts and fought very well in the clinches, but he was decidedly awkward and unable to follow up any advantage.

In the last two rounds Ashley went at the boy from the Hub in a way that made the Fall Riverites yell, but he was unable to put him out.

at the hands, or mouths, of umpires. Herr Wagner has sent broadcast an interview with himself, in which he says as follows:

"I never threw the ball at Umpire Bauewine, but the New York papers told him I did, and he believed it. Bauewine also called me a bad name when he called me out. If a player had called him that it would have been the club-house for him. So I don't see why something can't be done to protect us poor players from abuse at the hands of umpires."

Wagner's case is exciting great pity and compassion in these parts. Several of the ball players were discussing the matter this morning, and one of them, whose identity must not be disclosed, said:

"Take a mild-mannered fellow like Wagner, and treat him like that, and he is likely to run his hitting and put him out of business. Being a fellow who never says anything to umpires, some action ought to be taken to prevent umpires from calling him bad names. It costs him and kills his ginger."

Speaking of this appeal by Wagner, who will sooner or later find its way to Pulliam, we wish to state that Harry may be the next National League president after all. Leaving out the subject of Barney Dreyfus had this to say last night:

"Pulliam is president now, and I know of no reason why he should not be the next time. I do not know of any opposition to him, and I don't believe the Pat Powers boys will amount to anything. In fact, I never knew of the Powers candidacy until I saw it in the papers."

Pulliam must have known what he was doing when he said in that widely published interview that for Barney Dreyfus he would always have good wishes.

Last night the Giants and the Pirates were the guests of a local party management, and incidentally were advertised all over town as an attraction.

WESTERN RACING DATES. CHICAGO, Aug. 4.—Directors of the American Turf Association have allotted several racing dates, but adjourned without taking action regarding winter racing at New Orleans or at Hot Springs. The local meeting was extended until Nov. 4, while a break between Sept. 10 and Oct. 7, while Louisville is closed. Oct. 9 later will be a racing date, but will be continued until Nov. 4. After that date Nashville will have two weeks of racing.
